

Job Title	Angular Developer
Role	Full Stack Developer
Role Category	Software Development
Employment Type	Full Time
Job Location	Chennai
Experience	2 to 3 Years

Job Description:

- *Angular Developer who has the technical ability to implement user interfaces using JavaScript and the Angular framework 4+.*
- *Knowledge of best practices and modern ways of creating interfaces and ensure the interface can interact with backend APIs (Node JS).*
- *Great communication and collaboration skills to interact with fellow frontend and backend developers regularly to ensure components can be integrated together.*
- *Solid knowledge of Typescript*
- *Good understanding of asynchronous request handling*
- *Familiarity with REST-based APIs and JSON*

Job Responsibilities

- *Building self-contained, reusable, and testable modules and components*
- *Design and implement visually aesthetic user interfaces.*
- *Work with other team members.*
- *Identify issues with front end code and rectify them to remove bugs.*
- *Create unit tests to ensure code is functioning as expected.*
- *Create well written documentation.*
- *Ensure front end code is able to query APIs.*
- *Communicating with external web services*
- *Experience with back-end technologies (Node.js, Express) is a plus*
- *Audit code to identify bottlenecks of performance and fixing them.*

Skills

- *HTML, CSS, JavaScript, jQuery, Typescript, Bootstrap, Angular 4+ Experience with Git is an advantage*
